Profile

I am a BTech graduate with a solid understanding of network security, penetration testing, vulnerability assessment, Linux, and security fundamentals. I aspire to gain real-world experience, actively contribute to a security-focused team, and build a career in cybersecurity.

Professional Experience

Front-End Developer Intern, Keltron

05/2023

- Developed responsive layouts using HTML, CSS, and JavaScript frameworks to enhance user experience across devices. Ernakulam, Kerala
- Updated and maintained user-facing webpages with HTML, CSS, JavaScript, and jQuery to ensure optimal functionality and design.
- Debugged code to improve site performance and usability, reducing load times and enhancing user engagement.
- Contributed to team meetings focused on project updates and objectives.

Education

BTech in Computer Science and Engineering,

2020 – 2024

Mar Baselios Christian College of Engineering and Technology

Kuttikkanam, Idukki

Higher Secondary, Auxilium HSS

2018 – 2020

Kattappana, Idukki

Skills

Technical Skills

- **Cybersecurity:** Network Security, Vulnerability Assessment, Penetration Testing, Security Fundamentals
- **Networking:** TCP/IP, DNS, HTTP/HTTPS, OSI Model, Ports & Protocols
- **Tools:** Nmap, Wireshark, Burp Suite, Metasploit, Gobuster, Nikto, SQLmap, John the Ripper, Hashcat, Hydra
- **Operating Systems:** Kali Linux, Windows
- **Web Security:** OWASP Top 10, Web Application Security, Basic SQL Injection, Authentication & Authorization
- **Programming & Scripting:** Python
- **Security Concepts:** CIA Triad, Authentication, Authorization, Threats, Vulnerabilities & Risk
- **Platforms:** TryHackMe

Soft Skills

- Analytical Thinking
- Problem Solving
- Attention to Detail
- Critical Thinking
- Communication
- Teamwork & Collaboration
- Continuous Learning
- Adaptability

Projects

Noteify

Technologies: Whisper AI, LSTM, NLP, NLTK, Flutter, Dart

Developed an AI-based note-taking application that converts spoken content into written text using **Whisper AI and LSTM**. Applied **NLP with NLTK** for text processing and summarization, with features for note storage, retrieval, and multilingual translation. Built the application using **Flutter and Dart**.

Tourism Management System

Technologies: HTML5, CSS3, JavaScript, Bootstrap

This project is a web-based application designed to assist tourists in exploring and planning their visits across various districts. Built using HTML, CSS, JavaScript, and Bootstrap.

Certificates

Network Defense

CISCO Networking Academy

Introduction to Cybersecurity
